The \$61 million SH 121/360 Interchange project will add new direct connectors for SH 114, SH 121 and SH 360 that will minimize weaving, reduce congestion and improve safety in the area. The improvements were included in the original \$1.6 billion DFW Connector project, but funds were not available at that time to deliver the entire scope. When congestion funding became available for these improvements in February 2016, TxDOT and NorthGate negotiated a plan to rebuild this portion of the original project.
